OFFICIAL RULES

[FIVB rules](#) should be followed. Any modification from FIVB rules should be notified by the competition organizer to the participants at the time the schedule is sent out, at the latest.

OFFICIATING, SCORING & RESULTS

At least 1 referee and scorekeeper per court.

25 points to win a set with 2 points difference. When a tiebreaker set needs to be played, the set is always to 15. Caps can be implemented for each set by the competition organizer if needed for time constraints but should be consistent throughout the event or have separate limits based on pool play and knock-out stage.

Games should generally be best 2 out of 3. Depending on the number of teams present, games can be lengthened to the best 3 out of 5, at the discretion of the competition organizer.

Referees can give a warning, a yellow card (1 point for opponent), a red card (the player is excluded immediately for that and the next game).
